UCS & SYMON BROS CASE STUDY

Creating the Cloverton Community

UCS & SYMON BROS PARTNERSHIP CASE STUDY

Project:

Cloverton Estate, Melbourne

Client:

Symon Bros Constructions

Developer:

Stockland

Contract value:

<\$500,000 for each stage

Requirement:

Over the next 30 years Cloverton Estate is expected to grow into a vibrant city in Melbourne's north and home to 30,000 residents. UCS has been contracted to provide full end to end electrical cabling services for each stage of the project from concept to completion.

Engagement:

UCS was engaged through a tender process by Symon Bros Constructions.

Services:

UCS Power provided one-stop-shop electrical services for the project including:

- Supply and installation of electricity distribution cables and associated systems
- Supply and installation of kiosk substations and service pits
- Design and drafting
- Civil works
- Electric cabling and construction
- Supply and installation of lighting cables and light poles
- Cable jointing and hauling
- Supply of bedding sand for electrical backfill
- Workforce management and dispatch
- Compliance and commissioning
- Full electrical construction audit and compliance management

UCS & SYMON BROS PARTNERSHIP CASE STUDY

Challenges:

The client needed compliance on multiple stages before the end of the financial year. UCS and Symon Bros Constructions have a long-standing relationship and rallied together by optimising resources and proactively solving problems to deliver all stages within the required deadline.

Project outcome:

Each stage of the Cloverton Estate development has been delivered on time and on budget, reflecting the UCS brand promise to deliver *safe. on time. first time.*

Customer benefit:

With more than 20 years of experience in the underground cabling industry, UCS offers a complete end to end works program, providing hassle-free efficiency and reduced risk for the client. On each stage of the Cloverton Estate development, UCS aims to satisfy or exceed client expectations and manage the smooth delivery of the project from concept to completion.
